

Preparation Course INCOSE ASEP / CSEP Exam April 23th to April 25th, 2012

About INCOSE Certification Program

The International Council on Systems Engineering (INCOSE) is a non-profit, professional organization with the mission to advance the state of the art and practice of systems engineering in industry, academia, and governments.

In Germany, the INCOSE Certification Program is being supported by the Gesellschaft für Systems Engineering (GfSE), the German Chapter of INCOSE.

Overview of Certification Levels

Within the training, INCOSE introduced a multi-level certification program which reflects the knowledge level of Systems Engineers.

The INCOSE Certification Program currently includes four levels:

	<p>The Entry Level for junior Systems Engineers.</p>
	<p>The Foundation Level for Systems Engineers with five or more years relevant work experience.</p>
	<p>The extension if you support or work in a US Department of Defence acquisition environment.</p>
	<p>The Senior Level for Systems Engineers with more than twenty years relevant work experience.</p>

BeOne is a cooperative member of the GfSE

BeOne Frankfurt GmbH is part of the BeOne group, which currently employs approximately 150 employees. The company provides consulting services mainly in German speaking countries in the process, IT and engineering issues. See also www.beone-frankfurt.de.

Since 2006 BeOne is a cooperative member of the Society for Systems Engineering (GfSE), the German branch of the International Council on Systems Engineering.

**Preparation Course INCOSE
ASEP / CSEP Exam
April 23th to April 25th, 2012**

Course Description

This three-day-course by BeOne is directed to systems engineers willing to make the next step in their career. Within the three days you will attain a deep insight into processes and methods of Systems Engineering including the adjacent enterprise processes. Basis of the training will be the INCOSE Systems Engineering Handbook v3.2 which will also be the basis for the INCOSE ASEP or CSEP exam.

The course deals with the following subjects: Systems Engineering Overview, Generic Life-Cycle Stages, Technical Processes, Project Processes, Agreement Processes, Organizational Project-Enabling Processes, Tailoring Processes etc.

Participation Conditions

Please apply for the preparation course when you meet the requirements for the ASEP or CSEP Certification (see Overview of Certification Levels).
All course material is in English because the INCOSE exam can only be taken in English.

Scope of Services

3-day-course at BeOne Frankfurt GmbH,
Trial exam including learning recommendation for the finishing of the INCOSE exam preparation,
Personal copy of INCOSE Systems Engineering Handbooks v3.2,
Course folder with course material,
Guideline to exam application,
List of registered Certification Centres,
Lunch, snacks and drinks on all three course days.
